

# Safety First, Justice Always

LAW OFFICES OF KENNETH BERGER

---

Welcome,

My name is Kenny Berger. I have spent my career representing people whose lives were changed in an instant.

If you are here, something significant has happened. You may be injured and unsure what comes next. You may be grieving and trying to protect your family. Either way, you deserve someone who will take both you and your case seriously.

Our firm focuses on life-changing injury and wrongful death cases. We do not try to handle everything. We take a limited number of cases each year, so we can prepare each one fully and give it the attention it deserves.

Preparation matters. We investigate thoroughly. We work with respected professionals in medicine, economics, and other fields when their insight is necessary. We build every case as if it will be presented to a jury.

That level of preparation positions our clients for meaningful resolutions. And if a case must be decided in court, we are prepared to see it through.

Just as important, we listen. Before we talk about strategy, we want to understand what this has meant for you and your family. You will not be treated like a case number. You will be treated like a person.

If we take your case, we will have your back. We will communicate honestly. We will prepare relentlessly. And we will pursue accountability with purpose.

Thank you for taking the time to learn about us.

Kindly Yours,

Kenny Berger
